### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Taylor on 1/10/2006.

1. The application has been amended as follows:

#### IN THE SPECIFICATION

In the Abstract of the Disclosure, page 34, line 1-3 "**DYNAMIC FRAME SIZE ADJUSTMENT ..... THROUGHPUT AND BIT ERROR RATE**" has been deleted.

2. Claims 1-30 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The closest prior art, West et al. (US 4,866,709) and Curry, Jr. (US 5,027,348) are in the same field of endeavor and disclose sensing the amount of data traffic and determine the optimum frame length, the lengths are preselected to optimize efficiency at average operating conditions. However, the cited references, taken alone or in combination fail to disclose "a bandwidth management module that adjusts the size of each subframe received with errors to a more efficient subframe size to be retransmitted to subscriber unit" as claimed in independent claims 1, 11 and 21.

Art Unit: 2667

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
